# **4<sup>th</sup> World Congress on ADHD**

From Childhood to Adult Disease

**6 – 9 June 2013**

Milan Convention Centre (MIC)

**Milan | Italy**

[www.adhd-congress.org](http://www.adhd-congress.org)

Dear Friends and Colleagues,

On behalf of the World Federation of ADHD it is our great pleasure to invite you to attend the 4<sup>th</sup> International Congress on ADHD: From Childhood to Adult Disease for what – we are sure – will be a very enjoyable and highly informative conference. The congress will be held in Milan, Italy, from 6 to 9 June 2013.

The key themes addressed will be the course of symptomatology in respect to transcultural influences, age and gender, developmental aspects of classification and co-morbidity; psychosocial and neurobiological aspects of aetiology, the latest update on genetics and neuroimaging, new findings in the psychotherapeutic and psychopharmacological treatment approaches, and features of life quality.

An excellent collection of scientific sessions will be prepared based on suggestions of the members of the international Scientific Programme Committee: Plenary Symposia with rewarded experts, Hot Topic Symposia, Workshops, Video Sessions, interactive Educational Seminars and Meet-the-Experts Sessions, and guided Poster Tours. Young scientists are especially encouraged to present their recent finding in Young Scientist Award Sessions and thus benefit from the congress.

Aside from the professional aspects of the Congress, Milan is a beautiful city with numerous activities to enjoy. The capital of Lombardy, with a population of 1.3 million people, is the biggest industrial city of Italy with many different sectors. It is a magnetic point for designers, artists, photographers and models. Milan has an ancient city centre with interesting buildings and palazzos, which is why so many people from all over the world are attracted by this vivid city.

We will be happy to welcome you in Milan in 2013.

Sincerely yours

Andreas Warnke  
Congress President  
President of the World Federation of ADHD

Manfred Gerlach  
Chairman  
Scientific Programme Committee
